

Aryan Gupta

FULL STACK DEVELOPER

Gurgaon, Haryana +91 7367993351 aryanguptawork26@gmail.com aryangupta.dev
linkedin.com/in/aryan-gupta-2026bvf github.com/aryan7061

SUMMARY

Full Stack Developer experienced in building and deploying web applications across the frontend and backend, with PostgreSQL and MySQL. Comfortable working with APIs, databases, and modern web technologies, while collaborating with backend teams to deliver functional applications. Actively exploring Python, LLMs, and Generative AI through hands-on projects and learning. Looking for opportunities to grow in Full Stack Development and Artificial Intelligence.

EXPERIENCE

Tricity Services — Fullstack Developer (Intern) January 2026 – June 2026

- Assisted in developing and maintaining web applications across frontend and backend components.
- Integrated REST APIs and worked with backend services to display and manage application data.
- Worked with PostgreSQL and MySQL for basic database operations and data handling.
- Collaborated with backend developers to understand API requirements, debug issues, and implement features.
- Identified and fixed frontend issues, improving application usability and reliability.
- Gained practical experience in full-stack development, API integration, database interaction, debugging, and application deployment.

PROJECTS

HisaabBook — Full-Stack CRM hisaab-book-three.vercel.app github.com/aryan7061/HisaabBook

- Built and deployed a **full-stack CRM** for companies, contacts, deals, and tasks using React 19, TypeScript, Refine, Ant Design, NestJS, GraphQL, TypeORM, and PostgreSQL; deployed on Vercel, Render, and Neon.
- Built an **AI assistant with LLM tool calling** for natural-language CRM queries, with every tool request passing through authentication, authorization, and user-ownership checks.
- Implemented **field whitelisting and server-side aggregation** for AI queries, backed by a 7-table PostgreSQL schema with TypeORM migrations, generated columns, and DataLoader batching for task relations.
- Developed a **drag-and-drop Kanban board and analytics dashboard** with @dnd-kit, filters, pagination, optimistic updates, GraphQL Code Generator, Vite code splitting, Excel export, and INR/USD conversion.

Portfolio Website — Personal Portfolio aryangupta.dev github.com/aryan7061/aryan-s_portfolio

- Built and deployed a responsive **React 19 + Vite 8 portfolio SPA** with a custom CSS design system, centralized content, and fluid layouts using clamp().
- Implemented **router-free section navigation** with the History API and IntersectionObserver, including URL synchronization and scroll restoration for browser navigation.
- Added **light/dark themes** with localStorage persistence and pre-paint theme handling, along with prefers-reduced-motion support for accessible animations.

TECHNICAL SKILLS

Languages	Python, JavaScript (ES6+), TypeScript
Frontend	React.js, Material UI, Ant Design, HTML5, CSS3, REST APIs
Backend & Data	Node.js, NestJS, GraphQL, MySQL, PostgreSQL
AI & Tooling	LLMs, Generative AI, Claude Code, Codex, GitHub Copilot
Platforms	Git, GitHub, Vercel, Render, Kaggle, Power BI

EDUCATION

Master of Computer Applications (MCA), Chandigarh University	2023 – 2025
Bachelor of Computer Applications (BCA), Chandigarh University	2020 – 2023
Senior Secondary (CBSE) · Secondary (ICSE)	2020 · 2017
